- ZignSec is an aggregator, workflow & API company
  - *A Digital Identity Service Provider (DISP)*
- ZignSec offer its platform to clients as SAAS model
- ZignSec has a pay as you go model based on number of transaction
- Assist clients to customize and digitize business processes & workflows
- We integrate new providers
- ...and we develop custom made solutions related to our core service

A client requesting a biometric check needs to perform much more than just this single check.

This leads to integrations with multiple service provider per jurisdiction.

**ZignSec's platform handles the entire workflow via one interface**
